

COST Harnosnow Snow Chemistry Workshop Sonnblickbasis

Annex 3: Sampling devices used for the “Snow Chemistry Intercomparison Experiment”

Devices Team Austria 1:

- 10cm stainless steel tube
- Plastics hammer
- 2 Stainless steel ladle
- Ruler
- Spring scale
- Pen
- Additional snow cutter
- Polyethylene bags (regular freezing bags) for snow samples
- Freezing box for storing samples in the field

Devices Team Poland:

- 10cm ????? cutter
- 2 Stainless steel ladle
- Ruler
- Spring scale
- Snow thermometer
- 50cm cutter/tube
- 10cm cutter with scale

Devices Team Italy:

## Devices Team Austria 2:

- 10cm stainless steel cutter/tube
- 2 Stainless steel ladles
- Ruler
- Spring scale
- Gloves
- Snow raster
- Snow shovel
- Stainless steel plate
- Polyethylene bottle for snow sample
